## PRESS RELEASE

FOR IMMEDIATE RELEASE:

### WAITR GOES LIVE IN NEW ORLEANS

July 5, 2016, Uptown & Jefferson Parish (Metairie, Kenner, Harahan, Elmwood, River Ridge)

You wanted great local food delivered; now you've got it!

Waitr app allows you to eat how and when you want...where you want. Browse fully-customizable menus from your favorite local restaurants, and have them delivered directly to your door. It's the most convenient way to eat, and it's finally coming to the NOLA area. We've already partnered with 25+ of the tastiest restaurants in the area, and more are joining everyday. Did we mention that we also have the carryout option? Well, we do!

Starting July 11th, have food delivered (or carryout) from: Wayfare, The Big Cheezy, Ninja Restaurant & Sushi Bar, Brick & Spoon, Amici Ristorante & Bar, and many more! Download the app for free in the App Store and Google Play Store, and see how convenient food can be. Be sure to subscribe to our newsletter and follow us on Facebook for the latest, and greatest, food-lover news and expansion updates.

Discover. Order. Eat.

Waitr was founded in Lake Charles, Louisiana, but we like to think we're Local Everywhere... even in the Crescent City. We currently have other participating markets, such as: Lafayette, Baton Rouge, and will continue expanding in the NOLA area. For more information, visit [experience.waitrapp.com](http://experience.waitrapp.com).
